Hi John,

I now have more complete information regarding my current situation with the fellowship: I will not be completing the fellowship. I just wrote an email to Dr. Garvey regarding this. He had mentioned that he would still be interested in having me join as a general surgeon. I am very interested, and I mentioned this as well in the email to him. If the position is still available, and you have any details could you let me know? Correct me if I am wrong, but you and Dr. Garvey had mentioned that for the bariatric position the income guarantee would be 250K for 2 years, benefits and 1-2 year partnership track. Would it be the same/similar for the general surgery position? Let me know as soon as possible.

Thanks for all your help and patience.

Sincerely

Neelu Pal
